

# FB-180 POLYESTER KM-MESH

## FB-180 POLYESTER KM-MESH

FB-180 series polyester km-mesh is a stitchbonded material that is ideally suited for use with RV Roof Magic coatings. The parallel fiber structure allows RV Roof Magic to quickly wet-out and totally saturate. These properties ensure a true monolithic membrane which remains intact even under thermal shock conditions.

## TYPE OF APPLICATIONS:

- Reinforcement of seams, cracks and penetrations on:
  - Various roofing surfaces
  - Concrete, stucco and brick
  - Wood joints and cracks

**RV Roof Magic FB-180** provides high tensile strength with good elongation for excellent thermal stress force properties. When used with RV Roof Magic, they provide flexible, reinforced repairs.

**RV Roof Magic FB-180** are soft flexible polyesters that will readily conform to corrugated metal and many other irregular surfaces. This makes them easier to handle and apply properly than other products.

RV Roof Magic FB-180 polyester km-mesh is compatible with both solvent-based and water-based coatings.

## AVERAGE TYPICAL PROPERTIES

Weight	3-oz/sq yd
Tensile	57.1 lbs
Elongation	61.65%
Mullen Burst	176.8 lbs
Trapezoid	16.1 lbs

## AVAILABLE SIZE

### 2' x 180'
